**Dhaka, Bangladesh | mahmudulmashrafe@gmail.com | +880 1798210399**
**@mahmudulmashrafe | @mahmudulmashrafe**

## EXPERIENCES

**Bdjobs.com** **Dhaka - 1212, Bangladesh**
**Intern - Jr. Product Analyst** **Oct 2026 - Present**

- Conduct product research, market analysis, and identify opportunities for data driven product improvements.
- Collaborate with cross functional teams on product strategy, requirements, and development.

**United International University** **Dhaka - 1212, Bangladesh**
**Undergraduate Teaching Assistant** **Nov 2024 - Oct 2026**

- Assisted faculty members in teaching and coordinating laboratory sessions for 300+ students in CSE courses, supporting hands on programming and technical learning.
- Supported grading, course materials preparation, and dataset management.

## PROJECTS

**Durjog Prohori - (A Disaster Management System)**

- Built Durjog Prohori, a web-based disaster management platform using MERN.
- Implemented multi-role authentication, SOS alerts, and real-time earthquake and weather monitoring.
- Integrated an AI assistant and interactive maps for disaster guidance and response.

**Web Scraping and Data Pipeline Development with Python, Docker, Airflow, and MongoDB**

- Builds robust data extraction and ETL pipelines using Python and Airflow
- Integrates Docker for portability and MongoDB for efficient data storage
- Automates web scraping and data workflows for scalable, repeatable analysis

**Sombhar - The Farmers Market**

- Developed a DBMS based agricultural supply chain platform connecting farmers directly with consumers.
- Enabled secure and efficient transactions to improve farmers' profits and provide fresh produce to buyers.
- Implemented database driven management for products.

**Maple House - Old Age Home Management System**

- Developed a web-based old age home management system for managing residents, healthcare, staff, meals, and facility operations.
- Implemented multi role authentication with dedicated portals for administrators, doctors, chefs, and residents.

## SKILLS

**Programming Languages:** Python, C, C++, Java, PHP, JS, SQL
**Databases:** MySQL, MongoDB
**Frameworks:** OpenCV, Pandas, NumPy
**Tools:** Git, Docker, Postman, Apache Airflow, Jupyter Notebook
**Languages:** English, Bengali

## EDUCATION

**United International University** **Dhaka - 1212, Bangladesh**
**Bachelor of Science in Computer Science and Engineering (BSCSE)** **Oct 2022 - Nov 2026**
CGPA**:** 3.95 out of 4.00
Thesis: A Closed Loop Wearable EEG Framework for Migraine Mitigation via Binaural Beat Entrainment

**Jatir Janak Bangabandhu Sheikh Mujibur Rahman Govt. College** **Dhaka - 1230, Bangladesh**
**Higher Secondary Certificate (HSC)** **Jul 2019 - Dec 2021**
GPA**:** 5.00 out of 5.00

## CERTIFICATIONS

**Center For Development of IT Professionals (CDIP), UIU** **Dhaka - 1212, Bangladesh**
**Data Engineer with Python & Machine Learning** **Issued: Mar 2025**
Credential ID: 921242003
